

TEST

PROFILE

Ambitious and structured master's student in Web Communication with an engineering background in product development. I thrive on helping others, solving technical challenges, and exploring new digital tools. With 1.5 years remaining in my studies, I am seeking a student position where I can develop my IT and analytical competencies while contributing meaningfully to impactful projects.

EDUCATION

Master of Science in Web Communication

Syddansk Universitet | Danmark | September 2024 - July 2026
